

LFP Series LiFePO4 Battery

Lithium Iron phosphate Battery with VRLA Shell

Brief Introduction

CSBattery 12V/24V LFP series battery, available in a variety of capacities, to be used as the building block of a larger energy storage system by assembling in series or parallel. The modular approach allows for flexible configurations to match almost any voltage and capacity requirements. Prototype system can be assembled faster than any time previously, therefore reducing project development time and decreasing non-recurring engineering expense. It has been successfully used in energy storage systems, AGV, forklifts etc. Excellent cycle life and maintenance free design offers end-users complete peace of mind

Applications

Solar Energy/Off-Grid Solar System

BTS Stations, Telecom System, BT Tower

Wind Energy System, Pump, Marine

UPS System, EPS System

Wheel chair, Golf Car, Sweeper

Caravan, AGV, Forklifts,

Electric Powered Vehicles

General features

Able to operate at -20~60°C

DOD 100% >2000 times Cycles

Robust Casing with Flame-retarded plastic UL94-V0, IP56

Long life high stability under high-temp. environment (no cooling needed)

Build in BMS

Complied Standards

IEC60896-21/22	RoHS/Reach
PSE/UL	GB/T19638
IEC61427	CE/ISO

LiFePO4 Advantage

LiFePO4 technology surpasses lead acid technology in all areas: reliability, performance, security, cleanliness...

- Weight/power ratio = 70% lighter than lead acid batteries
- Battery life = lasts 4 to 5 times longer than conventional lead acid batteries
- Very low self-discharge rate
- Wide range of operating temperatures = from 20°C to 60°C
- Unlike lead acid batteries, incomplete charges have no impact on battery life
- Extra security = leak-proof, as the battery does not contain acid. LiFePO4 batteries can therefore be installed in any position without risk of leakage.
- LiFePO4 technology eliminates the risk of explosion or combustion.
- LiFePO4 batteries are equipped with protection against short circuit currents (BMS), which protects the battery from short circuits, overloads and deep discharge.
- The BMS also balances cells in order to guarantee longer battery life.

LFP Series LiFePO4 Battery
